

Guidance for International Resettlement and Detention Services referrals

Our support

Our work to support those in Immigration Removal Centres (IRC's) takes the form of holistic emotional and practical support. The core of our work in this area focuses on offering independent support, returns advice and resettlement assistance to those who are faced with leaving the UK.

As an extension of this work, we provide a support service focussing on improving emotional wellbeing through one-to-one support and group workshops.

Referral eligibility criteria

We consider referrals from women and men in the following IRC's:

- Derwentside IRC
- Yarl's Wood IRC
- Heathrow IRC's – Colnbrook and Harmondsworth

We may be able to assist women and men in other IRC's across the UK with general advice and/or by signposting to other organisations and services, depending on the enquiry.

Returns and resettlement information can also be found in our Return booklets, available publicly from the Resources area of our website. The booklets include useful information about different countries and contact details for organisations overseas that can support with resettlement needs.

If you have any queries, please contact the International Resettlement and Detention Services team on **020 7697 4120**.
